---

I have 3 documents for other sites that I am trying to finish up. Also, I had jury duty yesterday and I have 8 hr. Hazwoper training this week. I will not have a chance to look at this till Friday and it will probably take a week or more for the review.

Ken

Where are we on reviewing the second dock submittal from EA?

Thanks

Brian W Mueller RPM

Mr. Werner:

Do you have any update on the EPA's progress, as promised?

Regards,

9597426

Jonathan Carroll

Mr. Carroll,

Earlier this morning I left a voice message at your office for you to call me about this matter. Therefore I assume your below message is your response to my call.

This morning Brian told me that later this month, or early next month, he anticipates he will be able to answer to your question about the status of the dock. Brian told me that as soon as he receives the necessary findings from his contractor he will have either Gloria or myself advise you of his recommendation.

**Subject:** Fw: Ingleside Site

Mr. Werner:

I was hoping to get some sort of update or possible feedback from you all regarding the status of the dock site. I have been put under mounting pressure from the bank with their concerns on the project.

Any update or information on timing of outcomes would be greatly appreciated.

Regards,

Jonathan Carroll

**Subject:** Ingleside Site

Gloria:

Sorry to continue to harass you, but I was hoping you could give me a little insight to the timing of Brian Mueller's conclusions. I have been struggling with keeping things all together with the Bank, they have been getting a bit anxious as of lately.

Any form of update would be greatly appreciated.

Regards,

Jonathan Carroll
